

Etched Glass Inserts for Kitchen Cabinet Doors

The Frank Lloyd Wright inspired design for this glass was created by Laser Design Solutions, Inc. as a compliment to the modernized Shaker cabinets.

Laser Design Solutions, Inc. created this glass design (left) as a compliment to the mahogany carved panels shown in the full kitchen photo below.

By replacing the hard metal mesh in the cabinets (below), the space now has an updated and brighter feel.

Our thirty five years of Surface Design experience adds an artistic touch to customize, personalize and beautify your environment.

We work closely with our clients to meet their design needs. Collaboration with architects, designers and suppliers assures success.
